[Property - TCEQ Site Map \(current as of 2009-05-20\).pdf](#)

Danielle,

Please refer to the attached TCEQ site map file that illustrates the site area (as of 2009-05-20) and the attached city limits.jpg file from Midland 911 District that illustrates the city limits of Midland (the City) in the site area.

Comparison of illustrations in both files shows:

1. The Site's northern and northeastern parts are located in Midland County **and are inside** the city limits of Midland (the City).
2. The Site's larger remaining part is located in Midland County **but is outside** the city limits of Midland (the City).

Bob Werner
